Registration for oil filler
(CAS #64741-88-4; EC #265-090-8)
Index No(CLP): 649-454-00-7
01-2119488706-23-0018

DISCLAIMER
This product is a polymer and is not classified as dangerous under criteria of Directives No 67/458/EEC, No 1999/45/EC and Regulation (EC) No 1272/2008 (Regulation CLP). This polymer does not contain substances classified as dangerous under Article 59.2 Regulation (EC) No 1272/2008, namely:
- in an individual concentration of ≥ 1 % by weight for non-gaseous mixtures posing human health or environmental; or
- in an individual concentration of ≥ 0.1 % by weight for non-gaseous mixtures that is carcinogenic category 2 or toxic to reproduction category 1A, 1B and 2, skin sensitiser category 1, respiratory sensitiser category 1, or has effects on or via lactation or is persistent, bioaccumulative and toxic (PBT) in accordance with the criteria set out in Annex XIII or very persistent and very bioaccumulative (vPvB) in accordance with the criteria set out in Annex XIII; or
- a substance for which there are Community workplace exposure limits.

In accordance with mentioned above, this product does not require and official e-SDS as per Regulations (EC) No 1907/2006 (articles 31.1; 31.2) and Commission Regulation (EU) No 453/2010.

This e-SDS is developed in good faith to provide a customer with sufficient information allowing to take necessary measures to comply with relevant HSE requirements.
1.2 Relevant identified uses of the substance
Most common technical function of Styrene Butadiene Rubber (Solution type): tyre production, technical rubber parts (profiles, hoses, shoe soles, belt production, technical rubber goods), rubber compound.

1.3 Details of the supplier of the safety data sheet

Only representative
Company name: Gazprom Marketing and Trading France
Address: 68 avenue des Champs-Elysées, 75008, Paris, France
Contact Telephone: +33 1 42 99 73 50
Fax: +33 1 42 99 73 99
Email Address: Yury.severinchik@gazprom-mt.com

Suppliers
Company name: Voronezhsynthezkauchuk JSC
Address: 2, Leninsky avenue, Voronezh, Russian Federation, 394014
Phone: +7 4732 20-65-26
Fax: +7 4732 20-69-40, 20-68-19
Email Address: postmaster@vrnsk.vrn.ru
Emergency phone: +7 4732 20-67-40

Emergency phone in the country of delivery: 112 (Please note that emergency numbers may vary depending upon the country of delivery though 112 remains valid as universal number)

SECTION 2. HAZARDS IDENTIFICATION

Classification:
ANNEX I OF DIRECTIVE 67/548/EEC:
Physical/Chemical Hazards: None.

Health Hazards: None.

Environmental hazards: None.

EU CLP 2008:
Physical/Chemical Hazards: None.

Health Hazards: None.

Environmental hazards: None.
Specific hazard:
No significant health hazard in normal industrial use conditions.
Contact with melted/ heated product may cause thermal burns.
Processing vapours, which can irritate eyes and respiratory tract, may form when product is heated at high temperatures.
Combustible solid.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a synthetic rubber, consisting of at least 70-75% co-polymer from styrene and butadiene (20-30% bound styrene), 25-30% oil filler (CAS#64741-88-4, EC#265-090-8), 0.2-0.4% antioxidant (CAS#82209-88-9). May contain traces of styrene (< 0.05%).

According to CLP Regulation the product is a mixture of poly(styrene-co-butadiene), oil filler (distillates (petroleum) solvent-refined heavy paraffinic):

<table>

</tr>
</tbody>
</table>

*The substance is not classified as carcinogenic (GHS08, Carc 1B, H350) as it complies with Note L (IP 346 < 3%; viscosity > 20.5 mm²/s at 40°C) having polynuclear aromatic hydrocarbon content < 3% determined in accordance with IP 346 (dimethyl sulfoxide extraction) (Annex VI – Regulation EC 1272/2008)

The product does not contain impurities or additives that could affect product’s labelling and classification according to Regulation (EC) No 67/548/EEC and Regulation (EC) No 1272/2008 (CLP) in the concentration ranges specified.

SECTION 4. FIRST-AID MEASURES

General information:
Spontaneous penetration of styrene-butadiene rubber into human organism is impossible.
Styrene-butadiene rubber at normal conditions is stable and non-volatile.
Under high temperatures and during rubber processing release of monomer vapors are possible which in poor ventilated areas may cause irritation of eyes mucous and upper respiratory ways.
Contact with eyes may cause mechanical damage, irritation of eyes mucous, delacrimation.
No significant health hazard in normal industrial use conditions.
Contact with melted/ heated product may cause thermal burns.

Inhalation:
In emergency and in case of poisoning by rubber combustion products or if decomposition or thermal destruction products are inhaled:
Move any exposed person to fresh air at once. Keep warm and at rest. If there is respiratory distress give oxygen. If respiration stops or shows signs of failing, apply artificial respiration. Get medical attention.

**Ingestion:**
In case of accidental swallowing.
Wash out mouth with water and give plenty of water to drink, provided person is conscious. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs naturally, have the exposed person lean forward. Get medical attention.

**Skin contact:**
There are no risks in normal industrial use conditions. In the case of contact with hot product remove contaminated clothing and wash skin with plenty of running water, under a shower if affected area is large enough to warrant this. Get medical attention.

**Eye contact:**
Rinse immediately eye with plenty of low pressure water for at least 15 minutes.
Remove any contact lenses. Get medical attention.

### SECTION 5. FIRE-FIGHTING MEASURES

**Extinguishing media:**
Use foam, dry chemical, carbon dioxide, sand or water spray.

**Special fire fighting procedures:**
Keep away from sources of ignition – no smoking.
Extinguish fire keeping safe distance. Not yet ignited rubber briquettes to be kept cool by means of water spraying.

**Unusual fire & explosion hazards:**
None.

**Specific hazards:**
Combustion generates irritating and toxic fumes.
Burning causes emissions of carbon oxide.

**Protective measures in fire:**
Wear canvas protective suit, gloves, helmets, face shields, rubber or kersey boots, gas mask.
In proximity to fire wear full protective clothing and MSHA/NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode.

### SECTION 6. ACCIDENTAL RELEASE MEASURES

**Personal precautions:**
See section 8.

**Individual safety measures:**
Remove sources of ignition.
Provide workplace ventilation, process equipment and communication sealing, air monitoring of the workplace, avoid contact with skin and eyes.

**Environmental precautions:**
Do not allow penetration of the product into water reservoirs, surface and ground water, sewer ducts and soil. Preventing disposal into water reservoirs of contaminated water without treatment.
Monitor content of hazardous substances in the air.
Provide sealing of process equipment.

**Spill clean-up methods:**
Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container.

### SECTION 7. HANDLING AND STORAGE

**Handling:**
Handle in accordance with good industrial hygiene and safety practice.
Provide input-extract and local ventilation of work zones.
Provide thorough sealing and grounding of process equipment.
Regularly control work zone air.

**Usage precaution:**
Use in accordance with safety measures, rules of personal hygiene and industrial sanitation in the production at the facility.
Avoid contact with eyes and skin. Do not ingest or inhale combustion or decomposition products.

**Storage precautions:**
Store in a dry, well-ventilated area, at temperature not exceeding 30°C.
Keep away from direct sunlight, atmospheric precipitation and incompatible substances in a closed container. Prevent from freezing.

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limits:**
None listed.

**Personal protective equipment:**
Respiratory tract:
Not required (if is used workplace conditions).
In emergency or in case of increase of hazardous substances concentration at the workplace wear positive pressure MSHA/NIOSH-approved self-contained breathing apparatus.

Hand protection:
Wear approved protective gloves.

Eye protection:
Wear approved safety goggles.
Skin protection:
Wear protective clothing and footwear, in contact with the hot product wear thermally resistant gloves.

Hygiene measures:
Personal hygiene and industrial sanitation in the production at the facility (wash hands at the end of each work shift and before eating, drinking, smoking or using the toilet).

Technical safety measures:
Forced-air and exhaust ventilation in work zones.
Compulsory monitoring of air conditions in work areas.
Sealing and grounding of equipment and communications.
Usage of intrinsically safe equipment.

Reactivity:
Undergoes oxidation, oxidative destruction.

Conditions to avoid:
Avoid high temperatures. Avoid naked flame. Avoid long term exposure to direct sun beams. Avoid contact with incompatible substances.

Hazardous decomposition products:
Carbon monoxide, carbon dioxide.

SECTION 11. TOXICOLOGICAL INFORMATION

General information:
No significant health hazard in normal industrial use conditions.

According to CLP Regulation the product is a mixture of poly(styrene-co-butadiene), oil filler (distillates (petroleum) solvent-refined heavy paraffinic):

<table>
<thead>
<tr>
<th>Property</th>
<th>Synthetic poly (styrene-co-butadiene) rubber (CAS #9003-55-8)</th>

SECTION 12. ECOLOGICAL INFORMATION

General information:
No significant ecological hazard in normal industrial use conditions.

<table>
<thead>
<tr>
<th>Property</th>
<th>Synthetic poly (styrene-co-butadiene) rubber (CAS #9003-55-8)</th>
<th>Distillates (petroleum), solvent-refined heavy paraffinic (oil filler) (CAS #64741-88-4; EC #265-090-8)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>General information</strong></td>
<td>At normal conditions rubber is a very stable product. Does not form toxic compounds with other substances in air and water.</td>
<td>Product does not meet the criteria for classification as an environmental hazard. As this substance is a complex petroleum product with unknown and variable composition belonging on the group of petroleum products having variable and low water solubility, aquatic toxicity testing is not technically feasible for this product itself. Aquatic and chronic toxicity is evaluated based on the aquatic toxicity test results of different petroleum products and using toxicity predictions obtained using the PETROTOX model for petroleum substances (CONCAWE; appendix 5 in CSR of other lubricant oils). Based on the available information this substance is not considered to possess acute or chronic aquatic toxicity.</td>
</tr>
<tr>
<td></td>
<td>Pollution of water ponds and soil with polymer flakes may occur only if production, handling and transportation rules are not followed, in case of effluent discharge without treatment, as a result of emergencies and accidents.</td>
<td></td>
</tr>
<tr>
<td><strong>Aquatic toxicity:</strong></td>
<td>Not investigated.</td>
<td><strong>Short-term aquatic toxicity</strong></td>
</tr>
<tr>
<td></td>
<td></td>
<td>Toxicity to fish (<em>Pimephales promelas</em>): LL50(96 h): &gt;100 mg/l; NOEL: &gt;= 100 mg/l (OECD 203).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Toxicity test on aquatic invertebrates (<em>Daphnia magna</em>): EL50 (48 h): &gt;10 000 mg/l; NOEL &gt;= 10 000 mg/l (OECD 202).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Toxicity to algae growth inhibition (<em>Pseudokirchnerella subcapitata</em>): NOEL (72 h) &gt;=100 mg/L (OECD 201).</td>
</tr>
<tr>
<td></td>
<td></td>
<td>Toxicity to other organisms: not applicable (product does not meet the criteria for classification as an environmental hazard).</td>
</tr>
<tr>
<td><strong>Biodegradation:</strong></td>
<td>Abiotic degradation: t&lt;sub&gt;1/2&lt;/sub&gt;: &gt; 30 d extremely stable.</td>
<td>Product is not readily biodegradable (OECD guidelines 301 B and 301F): 31 % degradation after 28 d (O&lt;sub&gt;2&lt;/sub&gt; consumption). Biodegradation for this complex hydrocarbon UVCB-substance is based on the test results of different petroleum products and modelling of hydrocarbon blocks using PETRORISK model (CONCAWE).</td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td><strong>Chemical degradation:</strong></td>
<td>Not investigated.</td>
<td>Resistant to hydrolysis because this product lacks a functional group that is hydrolytically reactive.</td>
</tr>
<tr>
<td><strong>Bioaccumulative potential</strong></td>
<td>Not investigated.</td>
<td>In accordance with the results of CONCAWE modeling, potential of bioaccumulation or adsorption to soil cannot be neglected. As this substance is a hydrocarbon UVCB, testing of BCF-factor and partition-coefficient is not</td>
</tr>
</tbody>
</table>
technically feasible. Therefore, bioaccumulation is evaluated based on the hydrocarbon blocks of different petroleum products using PETRORISK model (CONCAWE).

**Mobility in soil:** Not investigated.

**Results of PBT and vPvB assessment:** Can be stated that the substance does not fulfill the PBT criteria (not PBT) and not the vPvB criteria (not vPvB).

**Reference:** Russian Register of Potentially Hazardous Chemical and Biological Substances /FBEPH. SDS for oil filler from supplier.

### SECTION 13. DISPOSAL CONSIDERATIONS

**General information:**
Place into a suitable closed container for disposal.

**Disposal methods:**
Dispose of in accordance with local and national regulations.
Waste water containing rubber should be treated.
Packaging waste (paper bags) shall be collected and send for recycling. Plastic waste shall be removed to disposal.

### SECTION 14. TRANSPORT INFORMATION

**General:**
The product is not covered by international regulations on the transport of dangerous goods.
UN: none.

### SECTION 15. REGULATORY INFORMATION

**Chemical Safety Report has been performed for monomers:** 1,3-butadiene (CAS #106-99-0; EC #203-450-8), styrene (CAS #100-42-5; EC #202-851-5) and Distillates (petroleum), solventrefined heavy paraffinic (CAS #64741-88-4; EC #265-090-8).
