DISCLAIMER

This product is a polymer and is not classified as dangerous under criteria of Directives No 67/458/EEC, No 1999/45/EC and Regulation (EC) No 1272/2008 (Regulation CLP). This polymer does not contain substances classified as dangerous under Article 59.2 Regulation (EC) No 1272/2008, namely:

- in an individual concentration of ≥ 1 % by weight for non-gaseous mixtures posing human health or environmental; or
- in an individual concentration of ≥ 0.1 % by weight for non-gaseous mixtures that is carcinogenic category 1, 2 or toxic to reproduction category 1A, 1B and 2, skin sensitiser category 1, respiratory sensitiser category 1, or has effects on or via lactation or is persistent, bioaccumulative and toxic (PBT) in accordance with the criteria set out in Annex XIII REACH or very persistent and very bioaccumulative (vPvB) in accordance with the criteria set out in Annex XIII REACH; or
- a substance for which there are Community workplace exposure limits.

In accordance with mentioned above, this product does not require and official e-SDS as per Regulations (EC) No 1907/2006 (articles 31.1; 31.2) and Commission Regulation (EU) No 453/2010.

This e-SDS is developed in good faith to provide a customer with sufficient information allowing to take necessary measures to comply with relevant HSE requirements.
1.2 Relevant identified uses of the substance
Most common technical function of Styrene Butadiene Rubber (Solution type): tyre production, technical rubber parts (profiles, hoses, shoe soles, belt production, technical rubber goods), rubber compound.

1.3 Details of the supplier of the safety data sheet

**Only representative:**
- Company name: Gazprom Marketing and Trading France
- Address: 68 avenue des Champs-Elysées, 75008, Paris, France
- Contact Telephone: +33 1 42 99 73 50
- Fax: +33 1 42 99 73 99
- Email Address: Yury.severinchik@gazprom-mt.com

**Suppliers:**
- Company name: Voronezhsynthekauchuk JSC
- Address: 2, Leninsky avenue, Voronezh, Russian Federation, 394014
- Phone: +7 473 220-65-26
- Fax: +7 473 220-69-40, 20-68-19
- Email Address: officer@vrnsk.vrn.ru
- Emergency phone: +7 473 220-67-40

**Emergency phone in the country of delivery:** 112 (Please note that emergency numbers may vary depending upon the country of delivery though 112 remains valid as universal number)

**SECTION 2. HAZARDS IDENTIFICATION**

**Classification:**
- **ANNEX I OF DIRECTIVE 67/548/EEC:**
  - Physical/Chemical Hazards: None.

  Health Hazards:
  - None.

  Environmental hazards:
  - None.

- **EU CLP 2008:**
  - Physical/Chemical Hazards: None.

  Health Hazards:
  - None.

  Environmental hazards:
  - None.
Specific hazard:
No significant health hazard in normal industrial use conditions. Contact with melted/ heated product may cause thermal burns. Processing vapours, which can irritate eyes and respiratory tract, may form when product is heated at high temperatures. Combustible solid.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

This product is a synthetic rubber, consisting of at least 98.0% co-polymer from styrene and butadiene (23-27% bound styrene), 0.2-0.4% antioxidant (CAS#82209-88-9). May contain traces of styrene (< 0.05%).

<table>

<tbody>
<tr>
<td>Poly(styrene-co-butadiene)</td>
<td>none</td>
<td>9003-55-8</td>
<td>≥ 98.0</td>
<td>none</td>
</tr>
</tbody>
</table>

The product does not contain impurities or additives that could affect product’s labelling and classification according to Regulation (EC) No 67/548/EEC and Regulation (EC) No 1272/2008 (CLP) in the concentration ranges specified.

SECTION 4. FIRST-AID MEASURES

General information:
Spontaneous penetration of styrene-butadiene rubber into human organism is impossible. Styrene-butadiene rubber at normal conditions is stable and non-volatile. Under high temperatures and during rubber processing release of monomer vapors are possible which in poor ventilated areas may cause irritation of eyes mucous and upper respiratory ways. Contact with eyes may cause mechanical damage, irritation of eyes mucous, delacrimation. No significant health hazard in normal industrial use conditions. Contact with melted/ heated product may cause thermal burns.

Inhalation:
In emergency and in case of poisoning by rubber combustion products or if decomposition or thermal destruction products are inhaled:
Move an exposed person to fresh air at once. Keep warm and at rest. If there is respiratory distress give oxygen. If respiration stops or shows signs of failing, apply artificial respiration. Get medical attention.

Ingestion:
In case of accidental swallowing:
Wash out mouth with water and give plenty of water to drink, provided person is conscious. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs naturally, have the exposed person lean forward. Get medical attention.
Skin contact:
There are no risks in normal industrial use conditions. In case of contact with hot product remove contaminated clothing and wash skin with plenty of running water. Get medical attention.

Eye contact:
Rinse the eye immediately with plenty of water (low pressure) for at least 15 minutes. Remove contact lenses. Get medical attention.

SECTION 5. FIRE-FIGHTING MEASURES

Extinguishing media:
Use foam, dry chemical, carbon dioxide, sand or water spray.

Special fire fighting procedures:
Keep away from sources of ignition – no smoking. Extinguish fire keeping safe distance. Not yet ignited rubber briquettes to be kept cool by means of water spraying.

Unusual fire & explosion hazards:
None.

Specific hazards:

Protective measures in fire:
Wear canvas protective suit, gloves, helmets, face shields, rubber or kersey boots, gas mask. In proximity to fire wear full protective clothing and MSHA/NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions:
See section 8.

Individual safety measures:
Remove sources of ignition.

Provide workplace ventilation, process equipment and communication sealing, air monitoring of the workplace, avoid contact with skin and eyes.

Environmental precautions:
Do not allow penetration of the product into water reservoirs, surface and ground water, sewer ducts and soil. Preventing disposal into water reservoirs of contaminated water without treatment. Monitor content of hazardous substances in the air. Provide sealing of process equipment.
Spill clean-up methods:
Absorb spill with inert material (e.g. vermiculite, sand or earth), then place in suitable container.

SECTION 7. HANDLING AND STORAGE

Handling:
Handle in accordance with good industrial hygiene and safety practice.
Provide input-extract and local ventilation of work zones.
Provide thorough sealing and grounding of process equipment.
Regularly control work zone air.

Usage precaution:
Use in accordance with safety measures, rules of personal hygiene and industrial sanitation in the production at the facility.
Avoid contact with eyes and skin. Do not ingest or inhale combustion or decomposition products.

Storage precautions:
Store in a dry, well-ventilated area, at temperature not exceeding 30°C.
Keep away from direct sunlight, atmospheric precipitation and incompatible substances in a closed container. Prevent from freezing.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits:
None listed.

Personal protective equipment:
Respiratory tract:
Not required (if is used workplace conditions).
In emergency or in case of increase of hazardous substances concentration at the workplace wear positive pressure MSHA/NIOSH-approved self-contained breathing apparatus.

Hand protection:
Wear approved protective gloves.

Eye protection:
Wear approved safety goggles.

Skin protection:
Wear protective clothing and footwear, in contact with the hot product wear thermally resistant gloves.

Hygiene measures:
Personal hygiene and industrial sanitation in the production at the facility (wash hands at the end of each work shift and before eating, drinking, smoking or using the toilet).

Technical safety measures:
Forced-air and exhaust ventilation in work zones.
Compulsory monitoring of air conditions in work areas.
Sealing and grounding of equipment and communications.
Usage of intrinsically safe equipment.

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

<table>
<thead>
<tr>
<th>Property</th>
<th>Description</th>

</tr>
<tr>
<td>Relative density</td>
<td>1.0 g/cm³</td>
</tr>
<tr>
<td>Solubility</td>
<td>insoluble in water.</td>
</tr>
<tr>
<td></td>
<td>soluble in aromatic and aliphatic solvents (benzene, toluene, heptane, hexane, benzene)</td>
</tr>
<tr>
<td>Flammability</td>
<td>does not ignite spontaneously, burn only upon entering into a source of fire</td>
</tr>
<tr>
<td>Explosive properties</td>
<td>non explosive</td>
</tr>
<tr>
<td>Average molecular weight</td>
<td>200000-260000</td>
</tr>
<tr>
<td>Granulometry</td>
<td>not applicable, substance is not marketed or used in granular form</td>
</tr>
</tbody>
</table>

**SECTION 10. STABILITY AND REACTIVITY**

**Stability:**
Stable under normal temperatures and pressures.

**Materials to avoid:**
Strong oxidising agents, acids and alkalis.

**Reactivity:**
Undergoes oxidation, oxidative destruction.

**Conditions to avoid:**
Avoid high temperatures. Avoid naked flame. Avoid long term exposure to direct sun beams. Avoid contact with incompatible substances.

**Hazardous decomposition products:**
Carbon monoxide, carbon dioxide.
SECTION 11. TOXICOLOGICAL INFORMATION

**General information:**
No significant health hazard in normal industrial use conditions.

**Acute toxicity:**
LD$_{50}$ (oral, rats): > 5000 mg/kg
Inhalation toxicity: very low toxicity.
The substance is a non-volatile elastic solid and is produced in the form of briquettes. There is therefore no potential for inhalation exposure.

**Irritation/Corrosivity:**
Skin: none
Eye: none
Respiratory tract: none

**Sensitisation:**
Skin: none
Eye: none
Respiratory tract: none

**Cumulative:**
low

**Carcinogenicity:**
no carcinogenic effects

**Mutagenicity:**
negative

**Toxicity for reproduction:**
not investigated

**Repeated dose toxicity:**
not investigated

Reference: Russian Register of Potentially Hazardous Chemical and Biological Substances /FBEPH.

SECTION 12. ECOLOGICAL INFORMATION

**General information:**
At normal conditions rubber is a very stable product
Does not form toxic compounds with other substances in air and water
The product is poorly biodegradable but does not pose a hazard to the environment
Pollution of water ponds and soil with polymer flakes may occur only if production, handling and transportation rules are not followed, in case of effluent discharge without treatment, as a result of emergencies and accidents

**Aquatic toxicity:**
not investigated

**Abiotic degradation:**
t$_{1/2}$: > 30 d extremely stable

**Chemical degradation:**
not investigated

**Bioaccumulative potential:**
not investigated

**Mobility in soil:**
not investigated

Reference: Russian Register of Potentially Hazardous Chemical and Biological Substances /FBEPH

Water hazard classification
According to the German VwVwS: WGK- 0 (not classified)
SECTION 13. DISPOSAL CONSIDERATIONS

General information:
Place into a suitable closed container for disposal.

Disposal methods:
Dispose in accordance with local and national regulations.
Waste water containing rubber should be treated.
Packaging waste (paper bags) shall be collected and send for recycling. Plastic waste shall be removed to disposal.

SECTION 14. TRANSPORT INFORMATION

General:
The product is not covered by international regulations on the transport of dangerous goods.
UN: none.

SECTION 15. REGULATORY INFORMATION

Chemical Safety Report has been performed for monomers: 1,3-butadiene (CAS #106-99-0; EC #203-450-8), styrene (CAS #100-42-5; EC #202-851-5).

SECTION 16. OTHER INFORMATION

16.1 Indication of changes:
